

HP Bioactiva

Microbial additive for effluent treatment

Formulation for reduction in BOD and COD

Biodegradable

Easy to use

COD reduction by almost
60 – 75 %

Tolerance to phenolics
and chlorides

Highly adaptable and
effective at low dosage

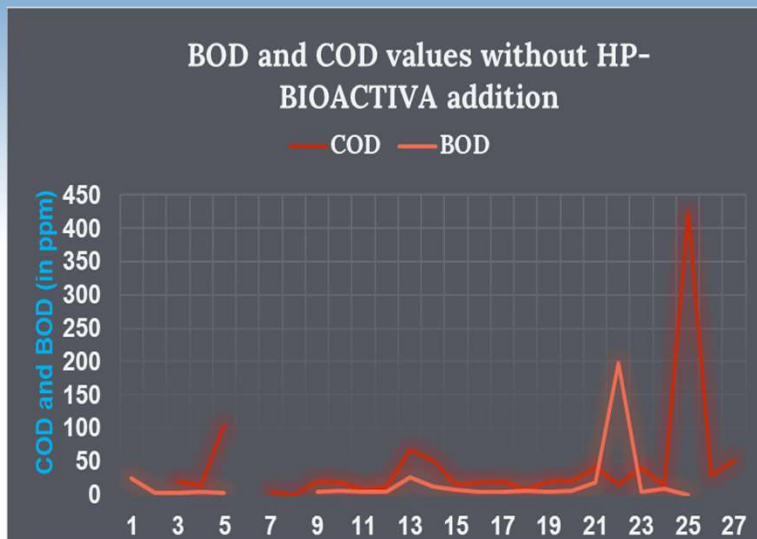

A comprehensive biodegradable solution for effective effluent
management

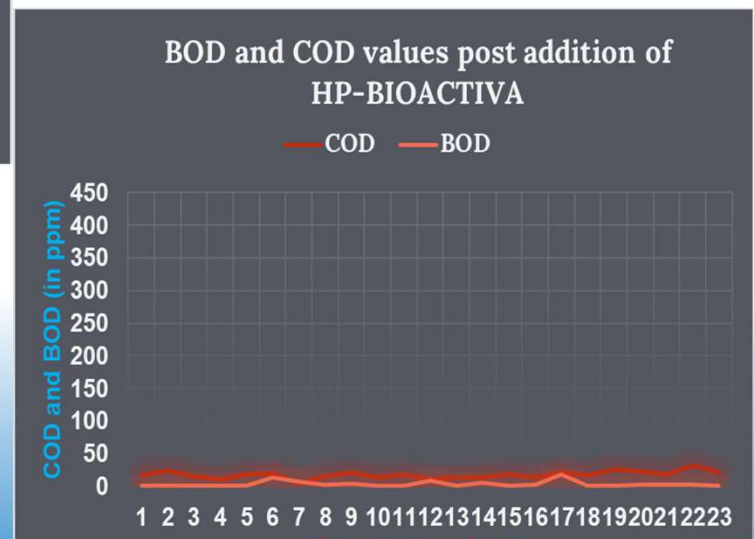

HP Bioactiva

Microbial additive for effluent treatment

- ✓ Biodegradable formulation
- ✓ Easily dispersible
- ✓ Highly adaptable microbial consortia effective at low dosage
- ✓ Withstands shock-loads of chlorides
- ✓ Reduces the use of other chemicals, nutrients in ETP aeration tanks

Easy to use and low cost solution for effluent management

Sustained performance over extended duration

Detoxifying effluents – for a brighter tomorrow
