

HP DWA

Novel dewaxing aid additives for enhanced lube oil quality and efficiency

Tunable alkyl chain anchored and cross linked polymer

Increased wax crystals and improved filtration rate

Enhanced base oil production

Minimization of shutdowns

Continuous usage at HPCL MR

100% Import Substitution

HP DWA

Novel dewaxing aid additives for enhanced lube oil quality and efficiency

- ✓ Solvent dewaxing is not commercially viable without DWA. DWA helps to form proper crystals, improve filtration rate, improve lube oil yield
- ✓ Indigenized the single vendor imported additive through Make In India product (Atmanirbhar Bharat)
- ✓ Increased base oil production and Minimization of shutdowns due to higher filter dP

Prestigious Best Innovator of the year award 2022 from FIPI

HP DWA: Novel dewaxing aid additives for enhanced lube oil quality and efficiency
