

HP-PFT

PE Based Compound for Rotomolded Plastic Fuel Tank

HP-PFT is a Polyethylene based polymer powder developed by HPCL Green R&D Centre (HPGRDC).

- **Excellent impact strength**
- **Excellent Environmental Stress Crack Resistance**
- **Excellent flowability to achieve uniform wall thickness**

HP
DURAPOL™
PERFECT BONDING

- ❖ **HP-PFT suitable for Rotomolding of plastic fuel tank.**
- ❖ **HP-PFT available in black colour powder form, particle size ranging from 150 to 500 microns.**
