

HP-Purus

Strong on Germs, Gentle on the Environment

Protecting Health, Preventing Infection

During the global COVID-19 pandemic, the importance of maintaining hygienic indoor and outdoor spaces has been reinforced. Failure to eliminate virulent strains from frequently touched surfaces can compromise containment efforts and increase the risk of future outbreaks.

Introducing HP-PurUs, an advanced all-purpose floor cleaner designed to disinfect contaminated surfaces and safeguarding health

HP-Purus

Strong on Germs, Gentle on the Environment

Why Choose HP-PurUs?

- ✓ **99.9% Germ Elimination** – Formulated as per WHO guidelines, HP-PurUs effectively eliminates virulent strains, including COVID-19.
- ✓ **Anti-Fungal Protection** – Its advanced composition inhibits fungal growth, ensuring a cleaner environment.
- ✓ **Eco-Friendly Formula** – Unlike conventional hypochlorite-based disinfectants, HP-PurUs offers enhanced residual disinfection with a lower environmental impact.

Stay Protected, Stay Healthy
