

HP VisABit 2.0

Viscosity Improving Additive for Bitumen

Viscosity Grade
B I T U M E N

- ✓ Upgrades Short residue to VG 30
- ✓ Upgrades VG 30 to VG 40 & VG 40 Super

Improved product

Enhanced Operational flexibility

Available in Two variants

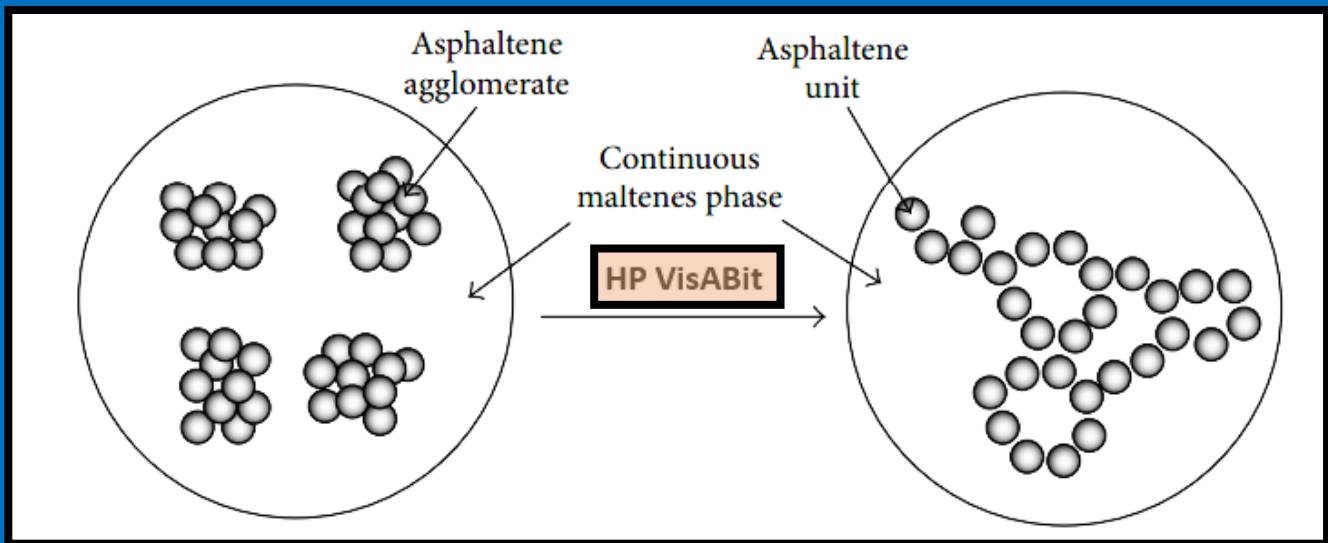

25% more Cost-effective

Less Corrosive

HP VisABit 2.0

Viscosity Improving Additive for Bitumen

- ❖ Higher grade Bitumen required for Heavy traffic roads, Airports and Industrial corridors
- ❖ HP VisABit 2.0:
 - ✓ Alters hydrogen bond network
 - ✓ Increases Asphaltene content
 - ✓ Enhances Asphaltene dispersion
 - ✓ Boosts Viscosity
- ❖ Commercial trials conducted successfully at HINCOL
