# HP Bio-Film

*Choose Sustainability, Make a Difference.*

A sustainable solution  
for waste  
management.

Durable, Leak-proof,  
and Suitable for  
Various Waste  
Disposal Needs

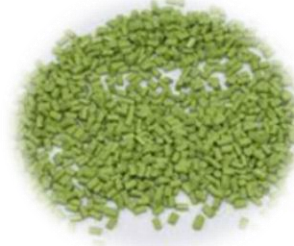

Eco-Friendly,  
Recyclable and  
Reduces Carbon  
Footprint.

Aligns with India's  
sustainability goals

## Why Choose Us?

- Metal free Product
- Non-Toxic & Safe
- Improved Barrier Properties
- Improved puncture and tear strength
- 100% Fully Biocompostable

HP Bio Film is a bio-compostable garbage bag with enhanced flexibility, barrier properties, mechanical properties, and thermal properties, achieved through the use of an in-house developed modified bio-additive. It is 100% bio-compostable and compostable according to ISO 17088 standards

The HP Bio Film formulations are suitable for a variety of applications, including garbage bags, grocery bags, carry bags, pouches, plant grow bags, etc.

Made from Renewable Resources: Crafted from plant-based materials.

Strong & Durable: Leak-proof and tough enough for a wide range of applications.

Non-Toxic: No harmful chemicals.

Superior Quality: Enhanced thermal and mechanical properties.
